USES OF COMPUTERS IN DIFFERENT FIELDS:

Dear students you must have seen computers at many places. Now a days all our daily life activities are based on online services and products which can be possible via computers. Computer is now used in almost all fields of life.

1. Computers at Home:

Computers are used at home for:

- Playing games
- Watching movies
- Listening to music
- Drawing pictures
- In doing homework

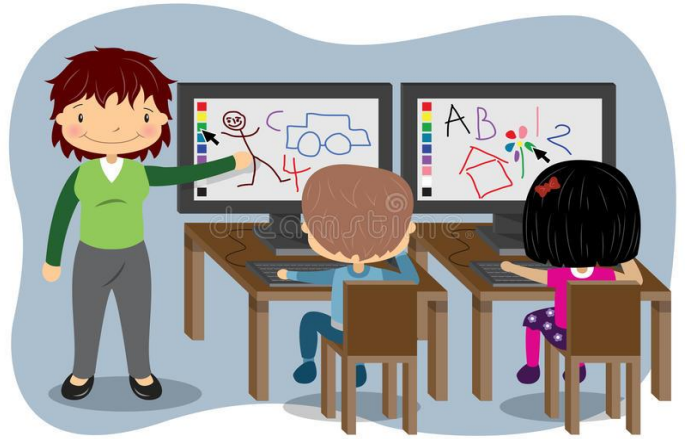

2. Computers at Schools

A Computer is very useful in School.

It is used:

- By teachers for preparing lessons
- Making time table
- Making report cards
- Doing practical work in computer lab

3. Computers at Markets

- A computer helps the shop-owner in keeping the records of items.
- It helps in making bill for your purchases.
- It helps to record the daily sale.
